

ON-DEMAND SOLUTIONS

Reduce costs and increase provider satisfaction with paperless on-demand solutions

In today's digital world, technological advancements have enhanced nearly every aspect of our lives, including healthcare service delivery. Though innovative technologies are being used to bring healthcare services into the future, benefit administration still heavily relies on manual, paper-based transactions and communications, resulting in slow, labor-intensive processes. To increase benefit cost savings and improve provider experience, now is the time to bring benefit administration to the digital age.

Welcome to a new era in payer-provider relationships. With SKYGEN USA's On-Demand Solutions, both payers and providers can save a significant amount of time and money on administrative tasks. Our On-Demand Solutions help payers engage high-quality providers in their networks, and help providers complete administrative tasks in minutes rather than hours, days, or weeks.

By eliminating the time and money spent managing and responding to paper forms or sitting on endless phone calls, payers can reduce the resources required to maintain provider satisfaction, and providers can submit claims quickly and obtain answers and information faster, allowing them to focus on delivering excellent member service.

SKYGEN USA'S ON-DEMAND SOLUTIONS BENEFIT PAYERS AND PROVIDERS

WHY SKYGEN USA

ON-DEMAND SOLUTIONS ENABLE AN ELECTRONIC AND PAPERLESS PROVIDER RELATIONSHIP

	CONTRACTING & CREDENTIALING	ELIGIBILITY	DIRECTORY VERIFICATION	CLINICAL GUIDELINES, AUTHORIZATION & DOCUMENTATION	CLAIMS
