

## PROVIDER DATA MANAGEMENT

Revolutionizing Provider Data Accuracy, Efficiency & Integration

### STUBBORN CHALLENGES IN MANAGING PROVIDER DATA

**3 in 4**

health insurers use legacy systems unsuited to handle the complexity of provider data

**40%**

of provider directory inaccuracies last an average of 540 days (1.5 years)

**24%**

of dental providers dropped insurers in 2024

2024 Sources: Clearwater Analytics, American Journal of Managed Care, ADA

### FEATURES PROVIDERS WANT

**1. One-and-Done Self-Service:**

Providers update information once in one platform; updates are pushed in real-time to all payers on the Dental Hub.

**2. Real-Time Data Flow:** Data flows to payers' systems (API) or SKYGEN's Enterprise System, supporting event-driven updates and real-time distribution.

**3. Support in Staying Current:**

Automated, digital reminders help providers keep their information in the Dental Hub current.

### SKYGEN'S UNIQUE ADVANTAGE: BEST-IN-CLASS DATA ORGANIZATION

**Structured » Highly Reliable » Best-in-Class**

SKYGEN's unique data structuring methodology eliminates costly duplication of provider records. Unlike other solutions, SKYGEN organizes provider data using a combination of provider, location, payee, and tax entity records.

Prevents redundant records

Reduces administrative overhead

Ensures data integrity across systems

### BENEFITS FOR PAYERS

SKYGEN transforms challenge into strategic advantage.

Immediate access to the most current data

Efficiency improved, redundancies eliminated

Enhanced compliance and reduced risk

Reduced operational friction and costs

Simplification creates provider satisfaction
